Technical Projects

FIFA-WC 2026 Prediction Model | ML - [LiveDemo](#)

June 2026

- Built a FIFA World Cup 2026 prediction engine using Random Forest, achieving 58–65% match outcome prediction accuracy.
- Engineered a sports analytics pipeline using Elo ratings, team statistics, and player form data from 1,248 international players.

AIVA – AI Image & Voice Analyzer | AI -ML

Mar 2026 – Apr 2026

- Built an AI virtual assistant using Streamlit with voice and camera input.
- Implemented emotion (NLP), gender, and age detection using ML models.

Customer Churn Prediction Model | ML

Mar 2026

- Built a machine learning model to predict customer churn for a telecom company using structured datasets.
- Applied data cleaning, feature selection, and classification algorithms to enhance model performance.

Certifications

Networking Essentials | CISCO Networking Academy Program

Apr 2026

AWS Certified Cloud Practitioner | AWS Academy

Mar 2026

Achievements and Competitions

RANN/26 Annual Sports Tournament (Football) | Inter-College Competition

Feb 2026

- Secured 1st place as part of the winning team in a competitive football tournament.

Smart India Hackathon (SIH) | Team-Based National Hackathon

Sep 2025

- Qualified up to the **institute level** through internal technical evaluations in a national-level hackathon.
